Making a claim

Cashless: show your Suraksha e-card at the TPA desk of a network hospital. For a planned admission, the hospital sends a pre-authorisation request at least 48 hours before.
Reimbursement: submit the claim form and original bills within 30 days of discharge.

9. When you leave Acme

9.1 Cover for you and all your dependants ends on your last working day with Acme. There is no grace period. To keep cover, each covered member may migrate to an individual or family floater policy with Suraksha Health Insurance Ltd (SAMPLE). The migration request, with the migration form, must reach the insurer **no later than 15 days before your last working day**. Requests received after that are treated as fresh proposals, with medical underwriting and fresh waiting periods.

9.2 On migration, credit is given for the time each member has been continuously covered under this group policy, up to the sum insured held here (₹5,00,000), against waiting periods for pre-existing diseases and specific diseases.

9.3 The migrated policy is a retail policy: you pay its premium, and its own terms apply. In particular, room rent limits, proportionate deduction and co-payment for older members may apply even though they are waived under this group policy.

> Leaving soon? Talk to the People Team at least 30 days before your last day so the migration form can be filed in time. Contact: benefits@acme-sample.example
